Forward-Looking Statements

During the course of this presentation, we may make forward-looking statements regarding future events or the expected performance of the company. We caution you that such statements reflect our current expectations and estimates based on factors currently known to us and that actual events or results could differ materially. For important factors that may cause actual results to differ from those contained in our forward-looking statements, please review our filings with the SEC.

The forward-looking statements made in this presentation are being made as of the time and date of its live presentation. If reviewed after its live presentation, this presentation may not contain current or accurate information. We do not assume any obligation to update any forward looking statements we may make. In addition, any information about our roadmap outlines our general product direction and is subject to change at any time without notice. It is for informational purposes only and shall not be incorporated into any contract or other commitment. Splunk undertakes no obligation either to develop the features or functionality described or to include any such feature or functionality in a future release.

Over 20 years IT industry experience
12 years working with monitoring software
7 years as a team leader/manager

I live with my family in the Blue Mountains, Sydney Australia.
Who are Converging Data

- Splunk Premier Partner, Reseller and professional services provider.
- Located in Australia & UK
- We have a team of 30.
- CSA, HIX connector HL7 and Healthcare Intelligence for Splunk
The NSW Rural Fire Service (NSW RFS) is the world's largest volunteer fire service (74,162 Members). Our members provide fire and emergency services to approximately 95 percent of NSW. NSW RFS members attend a range of incidents and activities:

- Bush and grass fires
- House and structural fires
- Storm damage
- Search and rescue
- Motor vehicle accidents
- Community education
- Bush fire mitigation.
Sydney Blue Mountains

- **Population**: 76,904 (2016)
- **Area**: 1,430 km² (552.1 sq mi)
- Home to the **WOLLEMI PINE**
In October 2013, 210 homes were lost within the Blue Mountains due to one catastrophic, freak bushfire. My home was one of those lost.
Start of the BAAS story

- Converging Data innovation week
- Research
- Similar products?
Rebuilding

- New building codes
- New building materials
- Lack of Automation with Home Safety systems
- 10/50 vegetation clearing
- 10,000L (2641gal) water tanks for firefighting
Arduino Vs Raspberry Pi

Arduino
- Cost
- Compatibility
- Splunk/ UF or HEC
- Power debt
- Size
- Limitations

Raspberry Pi
- Cost
- Compatibility
- Splunk/ UF or HEC
- Power debt
- Size
- Limitations
LoRaWan

- LoRa WAN
- Up 15km range
- Low power
- Compatible with Arduino and Pi
Sensors

- Wind
- Rain
- Temperature
- Humidity
- Smoke
- UV
- Flame
- Power
- Water Tank Levels
Splunk

- Getting the Data in?
- UF?
- Stream?
- HTTP Event Collector?
- Dashboards
- Google Maps
- Nice historical charts
- Email to SMS alerts configured.
Next Stage / Field Stages

- Field trials set to start in time for upcoming fire season.
- Support from Local Schools and residents.
- 10 units to be installed over 30 km area.
Splunk Cloud is ideal for this use case.
Proven a central point, accessible via web from anywhere.
Confidence of being available 24/7
Splunk Cloud is affordable and scalable.

Splunk 4 Good
Key points:
- NON-Profit
- Helping the community

Do you have an idea for Splunk 4 Good?
