# Agenda

- Background
- Architecture
- Use Case

# **Background**

In January, Splunk for Good created a COVID-19 App for our Global Security Team

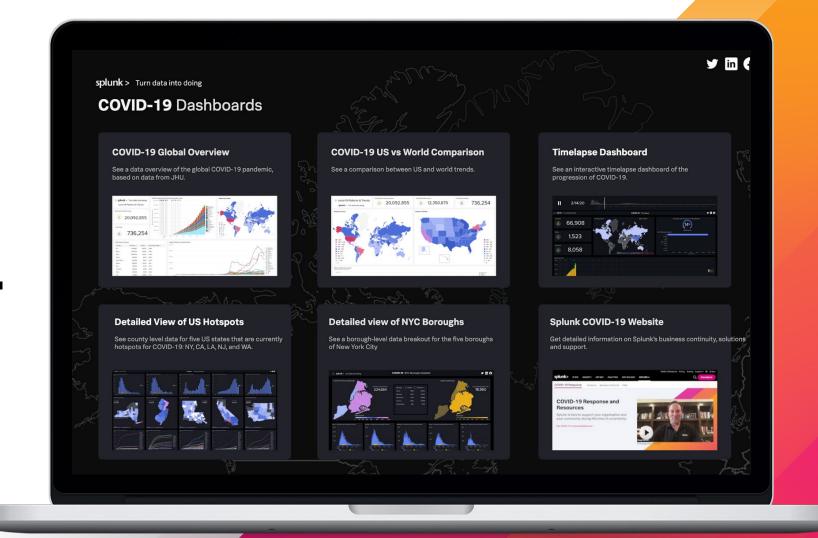

Looking for a way to disseminate information around COVID-19 to a larger audience

Connected up with William Searle in the UK on COVID-19 Efforts

Throughout the first half of 2020 we created 11 different COVID-19 Public Dashboards

# covid19. splunkforgood. com

# **Solution Design Decisions**

#### What we are not solving:

- Displaying dashboards created in the Splunk Enterprise Dashboards Beta on a public domain
- Deploying dashboards in an internet-scalable fashion
- Reasonable performance and load-times for most users
- Delivering near real-time insights
- Ability to review dashboards before they were made public
- Ability for people to expand upon the tool

#### What we are solving:

- Form inputs on Public Dashboards
- Returning results in absolute real-time
- Displaying Simple XML Dashboards
- Custom Visualizations
- An official Splunk supported product

# **Architecture**

Siegfried Puchbauer

#### William Searle Siegfried Puchbauer Ryan O'Connor

NHS Digital Splunk Splunk

#### **Architecture**

React / Next.js App

Dashboard Framework

NPM Packages

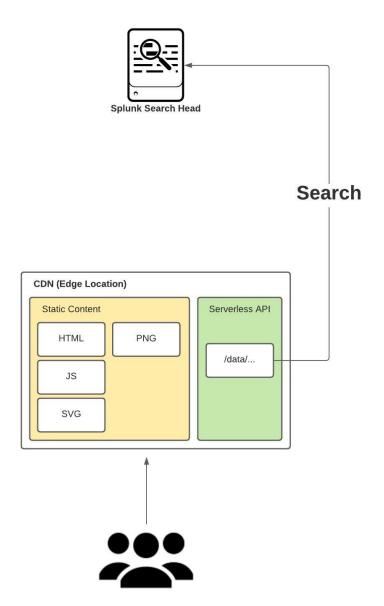

- @splunk/dashboard-core
  @splunk/react-visualizations
- . .

#### Serverless API endpoints

- Access to search results
  - Public
  - Unauthenticated
  - Cached

Deployed to CDN

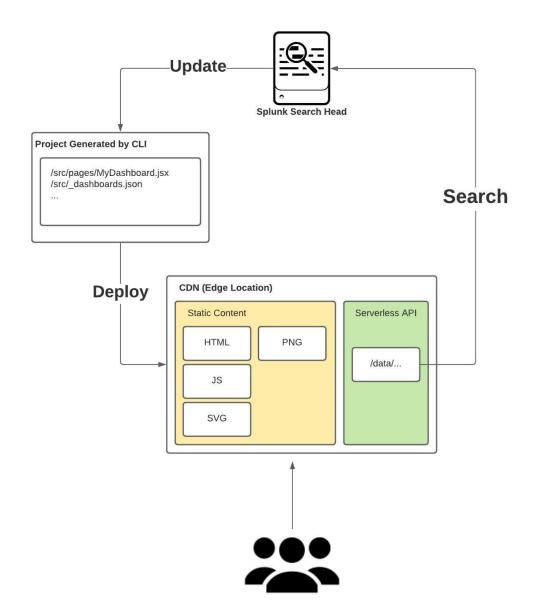

#### **Publisher CLI**

#### Generates:

- Boilerplate code
- Dashboard code
- Optimized assets
- Data snapshots (optional)

#### Subcommands:

- \$ dashpub init
- \$ dashpub update
- \$ dashpub snapshot

#### Customization

# Generated app meant to be customized

- Custom Navigation
- Custom UI
- Drilldown Behavior
- Datasources
- •

#### Example: Time-lapse

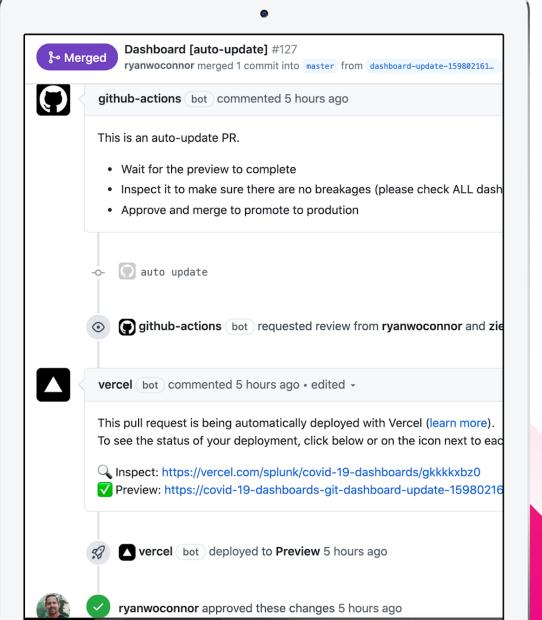

- Time slider component
- Customized data source

#### Limitations

- No Simple XML
- No search-driven interactivity with form inputs (like dropdowns)
- Experimental not supported
- No guaranteed version upgrades

#### Collaboration

# Github Actions for Automated Updates

**Create Pull Request** 

#### **Vercel Preview Deployment**

Ability to share links of preview Automated and manual checks

#### **Merging Pull Requests**

Promoting to Production

## **Use Case**

William Searle

#### William Searle Siegfried Puchbauer Ryan O'Connor

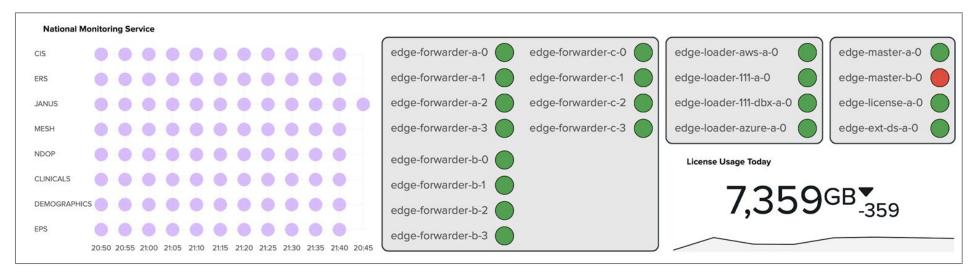

NHS Digital Splunk Splunk

We have always asked "Can we embed the entire dashboard?"

Adding Splunk visualizations into existing systems or wallboards

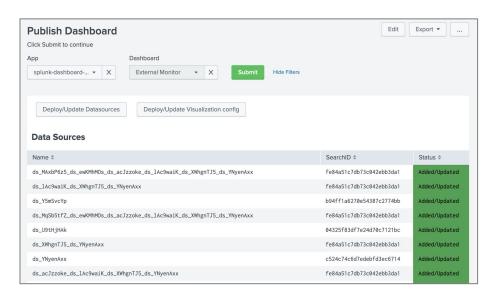

Take advantage of new dashboard features

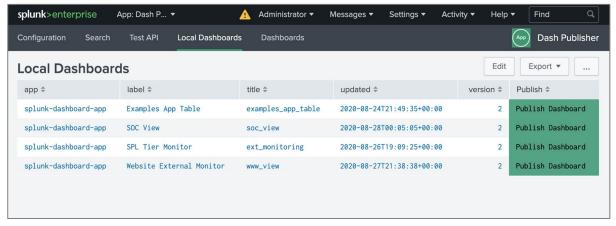

Publish Dashboards from Splunk!

#### Splunk Publisher app:

- What it is
- Why we built it
- How it works

#### Why AWS?

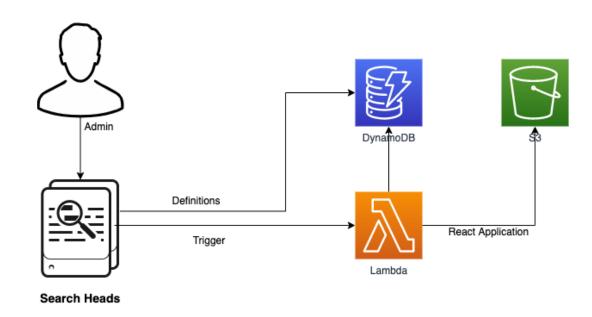

- Cloud-first approach
- Utilising serverless components
- Reduced management overhead
- Regional data storage / security requirements

What goes on behind the scenes?

#### **Admins**
